

Tafadzwa Chikomba

Hi there my name is **Tafadzwa Chikomba** and I am your lecturer for the **Auditing and Taxation** groups with Together We Pass. I would like to tell you a little bit about myself so that you can get to know me.

I am 26 years of age currently doing E-tutoring at Together We Pass where we give support to home study students. I am self-driven individual with an ambition to reach the apex in the accounting field, many say the only way to go the Chartered Accountant path, and I also hope to be an educator along the way. I am holder of Bachelor of Accountancy Honours Degrees, but I am also currently studying ACCA on a professional level, and I am looking forward to starting my CTA program with UNISA next year.

I am very passionate about teaching and I have close to 6 years' experience now in the field. To me lecturing is like my hobby and throughout the years I have gained experience in teaching Management Accounting, Financial Accounting, Auditing, Mathematics, and Taxation which is knowledge that is mainly for students studying ACCA, CIS, CIMA & other accounting programs that contains accounting modules.

My Qualifications

I am the proud holder of an Honours Degree in Administration, and I am also a member of CIS (Chartered Secretaries Southern Africa is a division of ICSA which is the global Institute of Chartered Secretaries and Administrators)

My Experience

I have three years of lecturing experience in Accounting and Economics courses

Why I love teaching

What I really enjoy about lecturing is that it keeps my mind sharp because I constantly have to learn new thing and do research so that I am confident in what I am discussing with my students.

My Studies

I am a holder of Honours Degree in Administration specialising in Public Finance Management, Government Policies, and Economics.

My Groups

I run the Together We Pass **Auditing and Taxation** groups.

Plan Your Studies!

Study time is any time you are doing something related to your course work. It can be completing assigned reading, working on a paper or project, or studying for a test. Make sure to schedule specific times throughout the week for your study time – and stick to the plan!

Always up to date with the latest developments. In addition, the page is extremely reliable due to the prompt response of admins and other students when inquiring on a certain aspect. This page, in essence, resembles the saying "help is always offered for those who ask".
